## **The Night**

You're the night, Lilah A little girl lost in the woods You're a folktale The unexplainable You're a bedtime story The one that keeps the curtains closed I hope you're waiting for me 'Cause I can't make it on my own I can't make it on my own

It's too dark to see the landmarks And I don't want your good luck charms I hope you're waiting for me Across your carpet of stars You're the night, Lilah You're everything that we can't see Lilah You're the possibility

You're the bedtime story The one that keeps the curtains closed And I hope you're waiting for me 'Cause I can't make it on my own I can't make it on my own

Unknown the unlit world of old You're the sounds I've never heard before Off the map where the wild things grow Another world outside my door Here I stand I'm all alone Driving down the pitch black road Lilah you're my only home And I can't make it on my own

You're a bedtime story The one that keeps the curtains closed I hope you're waiting for me 'Cause I can't make it on my own I can't make it on my own
