

Heaven Cast

Morten Harket

They are always gonna last
The moments of the past
I keep things in the now
But you're still here somehow
I could have you here
Have you in the near
I'd keep things in the now
It was you that showed me how

I'm thankful for the still of night
Thankful for the morning light
Thankful you were here
Thankful I was there
I'm thankful there is you and I

You and I we are heaven cast
We are heaven cast

There are doors that can't be closed
Life has taught me so
Still moments to be found
That's what time evolves around
Did we know it hand in hand
How moments can expand
I'll keep things in the now
But you're still here somehow

I'm thankful for the still of night
Thankful for the morning light
Thankful you were here
Thankful I was there
I'm thankful there is you and I

I'm thankful for the still of night
Thankful for the morning light
Thankful you were here
Thankful I was there
And thankful there is you and I

You and I we are heaven cast
We are heaven cast
