

## Hardware

## Mortification

Hardware, tools we need to build new life  
Hardware, rusted veins need revive  
Hardware, holes in our mind of pain  
Hardware, the word of life in our brain  
Just take a walk down the narrow road  
Ignore exits, stay on course  
The road map leads the way  
To life in a brighter day  
Nine more hours to a new millennium  
Stop on the roadside pray a prayer  
Time to reflect on my past life  
Drive again to make a new start  
Trouble playing on the record player  
Somber sounds on a cloudy day  
Run to the light they sing with hope  
Searching for a brighter day  
Tools of the word a timeless help  
Milleniums pass, all things change  
Like the vinyl on the record player  
Old things pass but the hardware stays
