

## Seen It All

### Mortification

Bosnian land mines, Russian end times  
Baby kill pills, induced suicide bills  
Stare the world down in its eyes  
See the emptiness, deception and lies

Have we not seen from our easy chair,  
The convicted psycho's evil glare;  
Numbed to life's blood and death  
T.V.'s reality we're being fed;

For mans success will be the blackest of gain!  
A certain season for terror to reign!

Nazi war crimes, the poor's poverty lines  
earthquakes in Japan, move destiny's hand  
The petty division, in our wealthy lands  
starve children, taking food from their hands

Have we not seen troubled eyes;  
More pain and tearstained cries;  
Our will to bring change;  
Will help us turn;

O, God haven't you seen it all  
Since man's rise and fall  
Have mercy on our kind  
For it's you we must seek and find  
O God haven't you seen it all, Devastation and deaths call  
It's cause and effect has come  
This worlds terror has begun  
My God haven't you seen it all  
The reassurance op pain, by our choice it remains! My God!

Nations banking, U.N. backing  
revelation unfolds, talons take hold  
a stared empty glare, raised not to care  
life sucked back within, black ugly sin.

Have we not seen troubled eyes;  
More pain and tearstained cries;  
Our will to bring change;  
Will help us turn;
