

When Love Met Destruction

Motionless in White

This is what happens, when love meets destruction
We'll watch the hourglass end, your time is up

Oh

This is my life's work
Eleven tracks is not enough
To tell you how I've died inside
Love is lost like words
Eleven tracks is not enough

This is what happened, when love meets destruction
Life for life

If I die, before I wake you'll have your fucking soul to take
