

What If I Go?

Mura Masa

Wherever you go
I'm going with you babe
Going with you babe
I wouldn't have missed all that ethylene
Wouldn't miss a thing
When you're lost on your own and you're wondering
If I'm following
Just know wherever you go
I'm going with you babe
Going with you babe

Look at the draw, you
That's my lottery won
A gem in the rough
I could be your finishing touch
So wherever you go
I'm going with you babe
Going with you babe
Wherever you go
Going with you babe
Going with you babe

Go, going, going, oh
Go, going, going, oh
Go, going, going, oh
Go, going, going, oh

Is it really like this?
See your lightning
Shining brightly through a haze
And little slings and arrows
Smoke and mirrors
Blue and icy
Meet my gaze
Boom my heartbeat

Slow to get up
Hard to say
You fill my head with madness
Good and bad
Don't be the one who got away
Got away

Wherever you go
Going with you babe
Going with you babe
And every night spend without your face
Has been shattering
I colour my world in a violet shade to hide the pain
And you go solo no longer
I be, I be good for sure

Look at the draw, you
That's my lottery won
A gem in the rough
I could be your finishing touch
So wherever you go

I'm going with you babe
Going with you babe
Wherever you go
Going with you babe
Going with you babe

Go, going, going, oh
Go, going, going, oh
Go, going, going, oh
Go, going, going, oh

Wherever you go
Going with you babe
Going with you babe
Wherever you go
Going with you babe
Going with you babe
(I'm going)
Wherever you go
(I'm going with you)
Going with you babe
Going with you babe
(Wherever you go)
Wherever you go
(I'm going with you)
Going with you babe
(I'm going with you babe)
Going with you babe
(Yeah)
