

Map Of Your Head

Muse

A **D** **A**
I'm sick of feeling my soul
A **D** **A**
some people who'll never know
 E **F#** **D**
just how purposely and empty they've grown
A **D** **A**
because their language confuses
 D **A** **E**
like computers refuse to understand
 F# **D**
how I'm feeling today

A **D** **A** **D**
I'm freezing and losing my way
 A **E** **F#** **D**
I don't need another map of your head
I'm freezing and losing my way
I don't need another map of your head

Whhhoooahhhh oohhhh

Then it just all goes the same like above

I saw a liquid controlled
that gives life to a soul
I hit my head on it
and woke up to know
that I was all alone
wearing just socks and a phone
someone's screaming
like their world might explode

Yeah I'm freezing and losing my way
I don't need another map of your head
I'm freezing and losing my way
I don't want another map of your head
whoaaaaaaahhhh

I'm freezing and losing my way
I don't need another map of your head
I'm freezing and losing my way
I don't want another map of your head
yeah
