

# Achilles Heel

Mutemath

I was born in the vacant  
Wasteland of the faithful  
You say prayer's when you're scared  
To be careless and found ungrateful  
I was born a defender  
Of a hell made for sinners  
And never did ever forget that it is still well equipped for quitters

I've been under impressions  
Of a God in the heavens  
Who strikes down all the heathens  
And fights to protect His children

The Achilles heel  
In this world  
You gotta hold ground, but you can't stick around forever  
You only feel when it hurts  
You wanna cheat death, but you can't hold your breath forever

I'm a man on a mission  
Working hard for the vision  
I preach love all around but I can't get these clowns to listen  
I will die as a martyr  
A brimstone firestarter  
And proud to burn down the town, to drown it in the baptismal water

The Achilles heel  
In this world  
You gotta hold ground, but you can't stick around forever  
You only feel when it hurts  
You wanna cheat death, but you can't hold your breath forever

I can't believe it  
I can't believe it  
I-I-I-I can't believe it

The Achilles heel  
In this world  
You gotta hold ground, but you can't stick around forever  
You only feel when it hurts  
You wanna cheat death, but you can't hold your breath forever

My head is spinnin' round  
My head is spinnin' round  
My head is spinnin' round, is spinnin' round, is spinnin' round!  
My head is spinnin' round  
My head is spinnin' round  
My head is spinnin' round, is spinnin' round, is spinnin' round!

The Achilles heel  
In this world  
You gotta hold ground, but you can't stick around forever  
You only feel when it hurts  
You wanna cheat death, but you can't hold your breath forever

The Achilles heel  
In this world

Heel  
In this world  
You only feel when it hurts  
Achilles heel  
In this world

My head is spinnin' round  
My head is spinnin' round  
My head is spinnin' round, is spinnin' round, is spinnin' round!  
My head is spinnin' round  
My head is spinnin' round  
My head is spinnin' round, is spinnin' round, is spinnin' round!
