

Tell Your Heart Heads Up

Mutemath

When I was young and unafraid, it was all a game,
I was wrong to tell you that.
And when I thought all was fair in love and war,
I was wrong to tell you that.
but it always sounds so good in my head, you know
I don't have to tell you that.
Better watch yourself, you know me well
I'm on a trail and here I come

Tell your heart heads up
Tell your heart heads up

Well I don't have that thing inside that tells me, when I've said enough
I was gonna tell you that.
And I don't have a perfect line for every fight to cheer us up
Or I was wrong to tell you that?
And I know no one keeps you on guard more than I do
but I don't have to tell you that
Better watch yourself, you know me well
I'm on your trail and here I come

Tell your heart heads up
Tell your heart heads up

And I don't get it
I don't know, what do you want?
Honey you better
Tell you heart heads up
