

## Cast Down My Heart

MxPx

I know that you love someone else now  
I try to forget you then I forget how  
I can't bare to hear them play our song  
My days are empty and oh so long

Tear me apart  
Cast down my heart  
Tear me apart  
Cast down my heart

What's the use in trying?  
It won't bring you back to me  
Even though I feel like dying  
This will make me stronger, eventually

We all have those dark days  
Where you just don't know what went wrong  
Let the past be the past  
Every break needs a cast  
To make it stronger  
What doesn't kill us  
Will make us stronger
