

# Nothing's Gonna Change

MxPx

You know what you want, you know what you want  
But you can't seem to make it happen  
So figure it out, figure it out  
East meant west with big surprises

Nothing's gonna change  
When you've got sickness of the spirit  
And it's caused an infection  
Nothing's gonna change  
Unless you change yourself  
Head into a new direction

With everyone deciding to define you  
In one short paragraph and if you're lucky two  
This is your affliction  
This is your addiction  
Hysteria is crushing you

Just look at the world, look at the world  
As if for the first time in your life  
Discover yourself, discover yourself  
These ethics by numbers don't add up at all
