

## A Million Pearls

### My Brightest Diamond

I tried to tell you what I can do  
But you won't believe what you cannot see  
Oh well, oh well, oh well  
Oh well, oh well, oh well

Thanks to all the times it was said  
You can't, you can't, you can't  
Well, I did, I do, I do  
Well, I did, I did, I do

And cheers to all of them who said  
"There's a million pearls just like you"  
Now where'd they disappear to?  
Now where'd they disappear to?

I wanted to go high  
I wanted you to recognize  
Something you saw worth keeping  
Oh well, oh well, oh well

If I show you my disgrace  
Will you still display distaste  
If I bare to you my-  
Will it mean anything to you at all  
When I offer up my mouth  
How you spit me out  
'til I learn to be proud  
On an ocean floor I'm found  
As just one of the million other

A million  
A million  
A million pearls  
A million  
A million  
A million pearls  
A million  
A million  
A million pearls
