

Mother

My Brightest Diamond

She's my wishing well
She's the earth below
She's oh so dangerous
Feminine smile
A wind spun wild
Wild

She did what you wanted
She said what you thought
Got me in trouble
For questioning God
Silence emotion
Thought I'd be fine
Leaving off my woman
And leadin' with my mind

I came from my mother
Then forgot my mother
So I go back to mother
And I learn to love her

I came from my mother
Then forgot my mother
So I go back to mother
And I learn to love her
And I learn to love her
And I learn to love her

She's a midnight sun
She's a crystal blue
She's a valley cracked
Open wide in the wind
Spun wild

She'll do what you want
Say what you think

I came from my mother
Then forgot my mother
So I go back to mother
And I learn to love her

I came from my mother
Then forgot my mother
So I go back to mother
And I learn to love her

I came from my mother
Then forgot my mother
So I go back to mother
And I learn to love her

I came from my mother
Then forgot my mother
So I go back to mother
And I learn to love her
And I learn to love her

And I learn to love her
And I learn to love her
And I learn to love her
And I learn to love her
