

## Sway

## My Brightest Diamond

I'm trembling like a flower after a storm  
Well, I get on board, we press in tight  
The engine blowing, we release the cord  
The water takes us high  
We sway  
We sway  
In the moonlight  
On the shifting center line

I could not stay  
Sway  
I could not stay  
Sway

I feel a hand holding me upright  
Let's take the comfort we can get tonight  
We become a chorus of cussers and lovers  
I just know I'm holding on to you  
For dear life  
We sway  
Sway  
In the moonlight  
On the shifting center line  
Sway  
Sway  
In the moonlight  
On the shifting center line  
Sway  
Moonlight  
On the shifting center line

All eyes out  
For the rainbow  
In the meantime  
Everybody heave-ho

Everybody row  
Heave-ho  
Everybody, everybody row  
Heave-ho

Dance  
Dancing through these changes  
Dance  
Dancing through these changes  
We sway  
Sway  
In the moonlight  
On the shifting center line  
Sway  
Sway  
In the moonlight  
On the shifting center line  
Sway  
Moonlight  
On the shifting center line

All eyes out  
For the rainbow  
In the meantime  
Everybody heave-ho
