

## We All Use

## My Ticket Home

All the people that you know  
They take the current from the flow  
There is no place you can go  
Besides you had to be alone  
'cause nothing gold can stay

It's too late to call it off  
I try to find a way around  
Feels like you should have known  
We all use

All these people I don't know  
Shaking hands and dying slow  
There is no place I can go  
It's time i had to be alone  
'cause nothing gold can stay

It's too late to call it off  
I try to find a way around  
Feels like you should have known  
It's all in vain  
Watch it all come and go  
The pain I can't live without  
Feels like you should have known  
We all use
