

# Control Freak

Mýa

I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always  
I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always

Hush now, boy be quiet  
Don't say nothing, just give it here  
Let me ignite your fire  
You know just what I'm talkin' bout  
I'm wanting you, best not move unless I tell you to  
Long as you do what you're told  
See you can be rewarded so

You can be the boss in the streets  
Once you step foot in my bedroom  
It's immediately all about me  
So you know, so you know  
I gotta be the one in control  
Frankly sweetheart, you can hit the door  
It's all about me  
So you know, just so you know

I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always  
I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always

I am a stick shift driver  
I like the money and the power, yo  
Eat the [?] or get devoured  
If you don't got your mind right  
It's gotta be my way  
Or you can getcha getcha getcha roll on, shorty  
I am the queen of this bitch  
And I don't take no backtalk

You can be the boss in the streets  
Once you step foot in my bedroom  
It's immediately all about me  
So you know, so you know  
I gotta be the one in control  
Frankly sweetheart, you can hit the door  
It's all about me  
So you know, just so you know

I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always

I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always

Gator Mane  
You used to be so sweet, now you disown me  
Trying to control me, like you a control freak  
I know I did you dirty, that was the old me  
Too busy rolling b's and blowing my OG  
You say you wanna leave, I swear I don't agree  
Girl all you gotta do is say yes like Floetry  
You mean the world shorty, how could you be over me  
Trynna teach you something like Professor Oglevee

M-Y-A, that's my government name  
[?], when the day breaks  
Doll babyface, fly chick with an attitude  
Watch these 5 inch heels, how they walk walk all over you  
I'm just a girl who loves to put on a show  
I'm just a freak who loves being in control  
So hop into the passenger seat, we goin' out to eat  
You must be hungry after looking at me

I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always  
I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always

I'm a control freak  
You wanna stay, you better do as I say, yeah  
I'm on top, always, always  
I get my way always
