

## The Plan

Nada Surf

There's a way to drive, I see it once in a while  
I watch the tail-lights and memorize  
I won't be too scared, I won't be too tired  
I'm becoming hard-wired

Feeling hazy, waking up inertia  
I'm having dreams I'm in the wrong picture  
Am I older than you thought  
Did you get less than you bought

There's a way to drive, I see it once in a while  
I watch the tail-lights and memorize  
I won't be too scared, I won't be too tired  
I'm becoming hard-wired

Dan you wanna roast it dan  
We're gonna kick it in the head if we can  
Me I'm just, me I'm just, I never got to read the plan

Dan you wanna roast it dan  
You know I never know the right way around  
I need a map, I need a map  
I need a map to get us out of this town

Now your hand is flashing danger  
I'm underdressed and you're getting stranger  
I can't tell you I'm incomplete  
You're gonna step on me
