

Perfect to some already  
Like I'm a certain ready  
Still got to hold on traffic  
We're in the post so lonely  
Going from rags to riches  
Just lightning boots  
So just remember  
Who brings it, so come here babe  
Cause when it's gone, when it's lost  
Good prints, so come here to get  
We thought that close is never  
Waging a war ain't clever  
Still got to tell our story  
Eyes on the field of glory  
Don't need to talk about us  
Stick around and just remember  
Who brings it, so come here babe

Oh, no disappearing higher, lost in time  
Good brings, so come here to get

Kinda like it golden  
Let's take the sun come down again  
Do you like it golden?  
Hope the sun comes 'round again

Building the something steady  
It's half the thing go straight in  
Is like the black or gold  
Just a smile on top  
Going from west to east  
Just lightning boots  
So just remember  
Who brings it, so come here babe  
Oh, no disappearing higher, lost in time  
Good prints, so come here to get, oh no

Cause when it's gone, when it's lost  
When it's gone  
Good brings, so come here to get

Cause when it's gone  
When it's lost  
When it's gone

Good brings, so come here to get
