

## So Good

Nao

Oh, I doubt you're good but it fits  
As long as you take me there  
Don't care if you're sure to come on in  
As long as you're taking me there  
If you roll the dice there's a chance  
As long as you take me there  
I don't even care about it  
Just as long as you're taking me there

We could be, we could be, we could be  
So as long as you're taking me there  
We could be, we could be, we could be  
So as long as you're taking me there

I see what you're saying, I hear you baby  
Oh I hear you baby  
You're loving your choice without me, I wanna take you there  
So I see my mistake, that's why I came  
I'm gonna take you there  
We're growing apart, missed a lead  
I'm gonna take you there  
(We don't even care about it)  
I'm gonna take you there

We could be, we could be, we could be  
So as long as you're taking me there  
We could be, we could be, we could be  
So as long as you're taking me there  
Well they don't know I take you there

Oh I'm taking- oh I'm taking- oh I'm taking you there  
Oh I'm taking- oh I'm taking- oh I'm taking you there

I'm almost there now  
We make over, the play to hold is over, I sway  
Cause I need to deal with the fever too  
Boy just take me there

And I know the bliss, you look down to this  
Gonna do you right I swear  
We're okay to you, I feel it too  
Just let me take you down  
Take me there

I'll get you there, yeah
