

Another day goes by  
Another lullaby  
Another dream that got away

There has been time to cry  
There will be time to die  
We all be living like gone astray

Another wind of change  
Another flash of light  
Another trend goes by  
Play the game  
Another wicked way  
Another blaming game to play  
Don't let the flood carry you away

Sail on when tides are rising  
Guided by spirit  
The word by the compass  
Sail on when winds are changing  
One way eternal  
Forever and ever

This is the time to kneel  
This is the time to kneel  
What was lost is to be found  
Searching high and low for wisdom  
??? Cold as lover cross the land???  
All shall perish  
In the end

Sail on when tides are rising  
Guided by spirit  
The word by the compass  
Sail on when winds are changing  
One way eternal  
Forever and ever

Jesus is the only way

An ancient wooden cross  
He died and rose for us  
To final sacrifice  
He took our sins  
Oh please forgive them  
For they know not what they do  
Forever lasting  
Oh forever free

Sail on when tides are rising  
Guided by spirit  
The word by the compass  
Sail on when winds are changing  
One way eternal  
Forever and ever
