

# When The Stars Are Falling

Narnia

Face to face with the liar  
Once again he plays his role  
Tempting me, dark desire  
Sense the evil of his soul

Lift me up and lead me on  
In my weakness You are strong  
You are with me when the night is falling  
When the world is upside down  
When the king has lost his crown  
You are with me when the stars are falling

Yeaaah...

Turning the page to another day, another day of grace  
Father forgive me for the things that I've done  
Walk right beside me, I know that You will

Lift me up and lead me on  
In my weakness You are strong  
You are with me when the night is falling  
When the world is upside down

When the king has lost his crown  
You are with me when the stars are falling

I will cry no more  
I seek forgiveness and I will be free

Lift me up and lead me on  
In my weakness You are strong  
You are with me when the night is falling  
When the world is upside down  
When the king has lost his crown  
You are with me when the stars are falling

Lift me up and lead me on  
In my weakness You are strong  
You are with me when the night is falling  
When the world is upside down  
When the king has lost his crown  
You are with me when the stars are falling
