

# We're Not Alone

Nas

Where there's life there is water  
We depend on mama nature  
there's a message for tomorrow  
Everything connects to you  
Some say soon it will be over  
you can see it in the weather  
out of tune with mama nature  
what you do comes back to you

We're not alone (4x)

Confucius, Confucius  
Sigmund Freud  
And Fard Muhammad  
Is it evolution or God?  
Searching for the truth is a threat  
Seems the closer we get to the truth  
State troopers or FEDs come out to silence you  
My house in Malibu probably tapped  
Because living next door to Demi Moore  
Plus, I'm black  
Plus, I want vengeance for the poor  
Who's attacked daily  
Patriot Act never scared me  
Jake in the Taurus  
Sticky in the jar-s  
Niggas I'm with got warrants  
America's brown and  
Twenty years from now  
Every town will be brown and Latin  
An African lookin Manhattan  
I'ma tell you what I seen with my three eyes  
Word to me, not a hoax, back in 9-9  
A spacecraft in the skyline  
In L.A., in daytime, ask Horse if I'm lying

Every mother, every father  
Raise your sons and your daughters  
With respect and with honor  
From the seed comes a fruit  
Its an unbroken circle  
All of life is universal  
And we're all in the struggle  
If i know one thing is true...

We're not alone (4x)

Evidence remains in debate  
Documents of our own Air Force base  
Additional terrestrial information  
Other planets with life population  
My observation  
Scientists study pictures of a flying disc  
Right on earth, anthropologists are finding shit  
Visitors, probably live with us  
They can mimic us  
It's sort of what we seeing in the cinemas

Take a look in the mirror  
And see the bigger picture  
Its good to be alive  
Its good to be alive  
Nobody is an island  
we are part of an environment  
Only way we gone survive  
Is if we harmonize

We're not alone (4x)

Reginald Lewis  
The black billionaire  
Before Oprah or Bob Johnson  
How'd he disappear?  
Conspiracy theories, UFO's in the air  
I've seen it with my own two eyes  
And I swear, like Warren Buffet  
Real money I'm just trying to touch it  
The diamond-encrusted shit, live illustrious  
'Cause we was deprived of it, suffered  
Now we pop to prove anything's possible  
My pimp strut was invented when they whipped us  
Now we diddy-bop just to show you that our strength's up  
Just when niggas about to see they cut  
Global warming about to burn us up  
Niggas never really seen paper in this world  
American blacks the teenager of this world  
Give us twenty more years to grow up  
Already geniuses; what I mean is this  
I used to worship a certain Queens police murderer  
'Til I read the words of Ivan van Sertima  
He inserted something in me  
That made me feel worthier  
Now I spit revolution  
I'm his hood interpreter

Take a look in the mirror  
And see the bigger picture  
Its good to be alive  
Its good to be alive  
Nobody is an island  
we are part of an environment  
Only way we gone survive  
Is if we harmonize
