

Shoot First and Run Like Hell

Nashville Pussy

Kick it

I don't know what I'm talking about so you better listen to me
All the way from Mobile, Alabama I'm a Tennessee
And I'm still hungry and I'm still here
Like they said, f*cked in my head
Let's get one thing clear
Shoot first and run like hell
Shoot first and run like hell, yeah!

Kick it

Moses came down from the mountain with two big blocks of stone
... said, "f*ck these things, I'll figure it out on my own"
Hey everybody, come gather 'round
It's a fact Jack, you're never talking back
Six feet underground

Shoot first and run like hell
Shoot first and run like hell, yeah!

Do it
