

Only Yesterday

Nat King Cole

Only yesterday I loved you
And you said that you loved me
Yesterday, I thought we both knew
That our love would always be

We planned our lives together, dear
Setting our hopes so high
You were my future, bright and clear
A rainbow that filled my sky

And only yesterday I loved you
But today it's plain to see
When you said you loved forever
No, you didn't mean just me

And only yesterday I loved you
But today it's plain to see
When you said you loved forever
No, you didn't mean just me

No, you didn't mean just me
