

Wine In The Cellar

Nat Stuckey

I got wine in the cellar and a party upstairs and here it is Friday night

I'm gonna shine up my shoes and slick down my hair and yet just to reap it tight

I got a lotta on my mind they gotta get off and I'm gonna do it right

With the wine in the cellar and a party upstairs and here it is Friday night

It's been a long week I'm glad it's gone week cause everything I did was wrong

It's been a long week a doggone hard week

And I'm so glad the weekend's come along

Cause I got wine in the cellar...

It's been a long week...

I'm gonna shine up my shoes and slick down my hair and yet just to reap it tight
