

Fantasies

Natalia Kukulska

I have spent my life
Moving on with my fantasies
Just to figure out
What another day will bring
I will never stop
Got the feeling I can change my ways
I can cross your mind
I enjoy the game

You can reach the sky
It's not over
Open up your heart
It's not over now
Not over

We both know about
Doin' that well
Keep it all open
The space

I have spent my life
Moving on with my fantasies
Just to figure out
What another day will bring
I'll be your temperature
When it grows
I'll be the goose-bombs on your skin
When it's getting cold

You can reach the sky
It's not over
Open up your heart
It's not over now
Not over

We both know about
Doin' that well
Keep it all open
The space
