

Wonderful Life

Natalie Grant

Beautiful is in the sky
Watch it slowly
All our time is flying by, too fast
Where we're headed is so clear
To somewhere higher
And anything we want is here, right now

'Cause the sun is shining
And the world is alive...and

Everything's all right
And all you ever needed
It's a perfect day to be alive
So no more waiting now
For a wonderful life
'Cause it's a wonderful life right now

Beautiful is in the eyes
Of a friend or a stranger
Souls searching in disguise, for love
We're all planning our escape
To something higher
Looking for a better way to feel

But the sun is shining
And the whole wide world is alive

Everything's all right
And all you ever needed
It's a perfect day to be alive
So no more waiting now
For a wonderful life
'Cause it's a wonderful life right now

And the sun is shining
And it's so good to feel alive

Everything's all right
And all you ever needed
It's a perfect day to be alive
So no more waiting now
For a wonderful life
'Cause it's a wonderful life right now
