

## Cameo

Natalie Imbruglia

Move

A little closer and Ill prove  
That I have something that you crave  
But you know all about it

Try

Give me a minute of your time  
And I can figure out a way  
To make it worth your while

Cos I am drawn to you and  
Everybody stares when you walk in the room  
But you keep disappearing

Have I told you you're my cameo?  
Wont you love it baby  
Here we go  
Cameo

Leave

Or you will find yourself in need  
Of something more than you can take  
And it'll drive you wild

I was a slave  
To every signal that you gave  
You had me ready for the chase  
And there was no denying

Cos I am drawn to you and  
Everybody stares when you walk in the room  
But you keep disappearing

Have I told you you're my cameo?  
Wont you love it baby  
Here we go  
Cameo
