## Move

A little closer and Ill prove That I have something that you crave But you know all about it

Try
Give me a minute of your time
And l can figure out a way
To make it worth your while

Cos I am drawn to you and Everybody stares when you walk in the room But you keep disappearing

Have I told you you're my cameo? Wont you love it baby
Here we go
Cameo

## Leave

Or you will find yourself in need Of something more than you can take And it'll drive you wild

I was a slave To every signal that you gave You had me ready for the chase And there was no denying

Cos I am drawn to you and Everybody stares when you walk in the room But you keep disappearing

Have I told you you're my cameo? Wont you love it baby Here we go Cameo
