Everything Goes

Natalie Imbruglia

You live your life You live like an island Satisfied You live for the moment Here you come You make it look easy I bet you smile in your sleep Are you smiling at me You live your life You live like an island Surrounded by Water and silence Mmm there you go You make it look easy I bet you laugh at yourself Are you laughing at me

'Cause sometimes anything goes When you're looking at me And sometimes everything goes When you're looking at me

So come on, come on
Everything goes
(When you're looking at me)
Come on, come on
Everything goes
(Sometimes when
You're smiling at me)
Come on, come on
Everything goes

 ${\tt Come \ on}$

You live your life
You live like an island
What is it like
I wish I could hold it
Mmm there you go
Making it look easy
I bet you like how it feels
But do you feel me

So come on, come on Anything goes Come on, come on Everything goes Come on, come on Everything goes

'Cause sometimes
Anything goes
When you're looking at me
And sometimes
Everything goes
