

Satisfied

Natalie Imbruglia

This summer time I have no fury
No chance of sinking sailing ships
If time stood still I'd take aim and fire
For you

For every ocean there must be shore
On which I stand with restless toes
When everything I look for in myself is in you

I feel a little more than empty
But I wanna feel more than full
It's a pity all I have
Is just enough to keep you satisfied
This knot can come undone no matter how we try to keep it tied

Inside this bottle there's a message
You may be drinking way too much
If I had the strength to take the weight of you I would

I feel a little more than empty
But I wanna feel more than full
It's a pity all I have
Is just enough to keep you satisfied
This knot can come undone no matter how we try to keep it tied

Something high it keeps me here
Something that keeps us together
??
You keep me dry despite the weather
I don't need to feel this way
For you but I do end up feel satisfied

It's a pity all I have
Is just enough to keep you satisfied
This knot can come undone no matter how we try to keep it tied

It's a pity all I have
It just enough to keep you satisfied
This knot can come undone no matter how we try to keep it tide

It's a pity all I have
Is just enough to keep you satisfied
This knot can come undone no matter how we try to keep it tied
