

Frozen Charlotte

Natalie Merchant

Blue like the winter snow in this full moon
Black like the silhouettes of the trees
Late blooming flowers lye frozen underneath the stars
I want you to remember me that way

Far away
I'll be gone
Will you wait for me here?
How long?
I don't know
But wait for me here

Still as the river grows in December
Silent and perfect blinding ice
Spring keeps her promises
No cold can keep her back
I want you to remember me that way

Far away
I'll be gone
Will you wait for me here?
How long?
I don't know
But wait for me here
Follow
Don't follow me to where I'll go

Far away
I'll be gone
Will you wait for me here?
How long?
I don't know
But wait for me here
Follow
Don't follow me to where I've gone
Someday you'll take my place
And I'll wait for you here
