

## When I Sing

Needtobreathe

Your melody is like a love letter  
And I'm loving everything you do  
Your skin feels just like a rose petal  
The remedy that gets me through  
Is when I sing

You're the song that I'm singing  
In my moment of weakness  
When I sing, baby, it's just my way  
To tell you I need you

Sometimes it feels like you're a storm comin'  
And I ain't had no rain for weeks  
I'm tired of being so far away from you  
You know I need you here not in my dreams  
So when I sing

You're the song that I'm singing  
In my moment of weakness  
When I sing, baby, it's just my way  
To tell you

I'll lead the choir of lost and found  
I'm reaching up right through the clouds  
With everything that makes a sound  
I'm gonna sing it out

When I sing

You're the song that I'm singing  
In my moment of weakness  
When I sing, baby, it's just my way  
To tell you I need you

Sing (I sing for you, I sing for you)  
When I sing (I sing for you, I sing for you)  
Baby it's just my way to tell you I need you  
To tell you I need you
