

# You Got to Me

Neil Diamond

Mama she always told me it would happen  
But she never said  
That it would happen like this  
Papa said,  
"Some little girl'll catch you nappin'  
Some little girl will get to you with her kiss"

You got to me  
You brought me to may knees  
Never thought I'd say please, girl  
You got to my soul  
You got control you got to me,  
You got to be mine

Used to slip  
Though every girl's hand like water  
There never was one  
Who could ever tie me down  
Straight ahead and steady as Gibraltar  
'Til you brought me tumblin' to the ground

You got to me  
You brought me to may knees  
Never thought I'd say please, girl  
You got to my soul  
You got control, you got to me,  
You got to be mine

You got to me  
You brought me to may knees  
Never thought I'd say please, girl  
You got to my soul  
You got control, you got to me,  
You got to be mine

You got to me girl  
All right come on now  
Say you got to me
