

It's Good to Be Alive Again

Neil Sedaka

I was destroyed the day I lost you,
I had no reason to go on.
The moment you walked through the door
and left me I thought that all in life was gone.
But then I went out in the sunshine,
The world was waitin' there for me,
I found that I could get along without you,
The pain is gone and now I'm free.

It's good to be alive again,
It's good to be alive again,
It's good to be alive again,
It's good to be alive again.

You tell me that you always loved me,
You didn't mean to treat me bad.
Well it's too late to tell me that you're sorry,
You lost the good thing that you had.
I got myself a taste of livin' And I have only just begun.
This great big world is filled with lots of people,
I won't be tied to anyone.

It's good to be alive again,
It's good to be alive again,
It's good to be alive again,
It's good to be alive again.

I'll make the most of every moment,
There's nothing gettin' in my way.
It took some time to put my life together,
I'm happy where I am today.
Don't try to tempt me with your sweet talk,
Remember me, I knew you when.
Thank God the lonely days and nights are over,

It's good to be alive again.
It's good to be alive again,
It's good to be alive again,
It's good to be alive again,
It's good to be alive again.
It's good to be alive again,
It's good to be alive again,
It's good to be alive again,
It's good to be alive again.
It's good to be alive again,
It's good to be alive again,
It's good to be alive again,
It's good to be alive again...
