

Off the Road

Neil Young

When the day is done
And the sun is sinking low
When you see the light
When you been most everywhere

You go
You go

When the traffic's slow
Break lines lined up for miles and miles
And you know the end is not in sight
You can never take your rides

Off the road
Off the road

When you're all alone
And you've been driving through the night
And you know the end is not in sight
You can never take your rides

Off the road
Off the road
