

# Outta This World

Nesian Mystik

[Intro: Sabre]

Houston, we have contact, she's the one  
She ain't like the rest (tell the truth man)  
You know, she's straight outta this world

[Chorus: Awa]

You got me baby  
You're one of a kind  
Give you the sun, the moon  
The stars in the sky  
You're incredible, out of this world  
It's like...

[Verse insert:]

I can't explain  
The way you got me going crazy  
Lady, lady

[Verse 1: Oldwun]

4, 3, 2, 1...

She got my mind blastin off like an Astronaut  
As hot as Mercury with these galactic thoughts  
Outta this world,  
Yo this chick is straight up cosmic  
Looks far from regular,  
You could call her telescopic  
You could be my Venus, I could be your Mars  
You outshine the rest cause you a Evening Star  
It's that dimple in your mind that makes you shine so bright  
What your doin to me, you got me feelin like...

[Verse insert: Awa]

(I can't explain the way you got me going crazy, baby, baby)  
Your sexyness got me beamin', gotta Klingon to that  
Got me Trek'n Stars tryna believe the facts  
It's that craziness that Cupid done bring  
Got me wrapped around you like Jupiters ring.

[Chorus]

[Verse 2: Sabre]

Got me light headed  
Defying gravity  
Spaced out, right route for her galaxy  
Because as far as I'm concerned  
She ain't from around here, so it's my mission to learn  
Could it be you and me were made to shine  
Sun to my moon just reflecting light  
Magnitism controlling my high tide  
G-force effect everytime she arrives

[Verse insert: Awa]

Not fly by nightly shooting star  
But I'm forever falling for you from a far  
That's where it ends with the star comparison  
Their shine fades in contrast it's embarassing

[Chorus]

[Verse 3: Junz]

Straight Outta this world, I couldn't even imagine  
Had me lost in space from the time I landed  
I can't explain what you do to me  
Cause I'm drawn to you girl like gravity  
Got Gee going crazy, sight getting hazy, focus on your vision so amazing  
Now every night I wish upon a star, so I can take flight to be where you are

•  
[Chorus x2: out]
