

# Damage Is Done

Neurotech

are you ready worm ?

come on

this is my favourite fairytale  
your gruesome, ugly nightmare  
do you know why things are wasted this way  
because your mindset is playing games

last wave got me  
striking me down yet again  
last wave got me  
fucking me, again and again  
come on motherfucker

lets go again  
again and again  
dig a hole  
and come to back me again  
slip away and live in your nightmare  
when damage is done

your heart is beating in a straight line  
energetic, but willing to die  
can't stand this fucking human flesh  
so weak and so incompetent

heartbeat in a straight line

ego

one more time

last wave got me  
striking me down yet again  
last wave got me  
fucking me, again and again  
come on motherfucker

but  
we'll go through this together  
we will survive together  
when damage is, when damage is done  
we will unite together  
we will do fine forever  
when damage is, when damage is done

damage is done
