

# The Game Needed Me

## Neverending White Lights

Say that you'll, call of the parade, oh I'm afraid for you  
Say that you, all that you aren't, and all that you are us for  
you, but

In the midst of the light, I fall away  
In the midst of the night, love find a way  
It's in the love that you carve in my vein

I found just a little more, you find nothing needs to be sure,  
I might, love is not a game no more  
I find a lover needs to take you home and I might,  
A lover needs to do you harm and I might,  
A lover needs to take you whole

Lay you lay you down  
Break you break you down

Say that you, call the parade, but I'm not afraid for you  
Say that you, call that parade off, Lord I'm afraid for you, but

In the midst of the light, I fall away  
In the midst of the night, love find a way  
It's in the love that you carve in my veins, in my veins

I had just a little more, you might tell me not to be sure,  
I find love is not a place no more  
You find love is here to keep me down and  
I find love is here to keep me alive and I might,  
Love is here to keep you alive

Break you break you down  
Lay you lay you down

You wanted love

Places that you wanna be, all the things that lovers see  
Everything that I had known, find me in your heart to show  
Love will melt the human race, pictures on our wall replaced  
Sending all your love away, sending all your love away  
Everything occurred to me, that love is just a lottery  
And I will never be afraid, I will never be afraid  
And at that very moment she, bats her eyes and turns to me  
Says, "I will never be afraid, I will never be afraid"
