Tighten It Up

New Edition

Ah year, alright y'all, ah
You know the game
I know sometimes
I Seem a little crazy
But I'm not too crazy in love
See I'm not a trick
I can take it or leave it
You can be about it
Cause I can do without it
For some reason
You take your life for granted
Like it's a game and
You'll always win
The things you say
And the things you do
You act like it won't come to an end
You need to realize
Easily you can be left alone
Tighten it up, you better
Before you find yourself by yourself
Easily you can be left alone
Tighten it up, you better
Before you find yourself by yourself
Some people say that
I'm nothing but a player
Don't play when it comes to my heart (laid back)
Don't be so cruel when you know everything is cool (cool)
You can be about it
Cause I can do without it
I let you slide once
I let your slide twice
Third time baby doll
It won't be so nice
You looking hot 'doe
But you can't play Ron DeVoe
The laid back mack
With mad flow
So, here we go
I got a hottie
With a mad body
Don't chu know
In the 5-0-0
On the way to the cribo
So, how you live?
I had to ask my man Biv
Uhm hmm
Looking kind of positive
Easily you can be left alone
Tighten it up, you better
Before you find yourself by yourself
Easily you can be left alone
Tighten it up, you better
Before you find yourself by yourself
Easily you can be left alone
Tighten it up, you better
Before you find yourself by yourself
For some reason you take you life for granted

Like it's a game
And you'll always win
The things you say
And the things you do
You act like it won't come to an end
But you need to realize
Easily you can be left alone
Tighten it up, you better
Before you find yourself by yourself
Easily you can be left alone
Tighten it up, you better
Before you find yourself by yourself
Easily you can be left alone
Tighten it up, you better
Before you find yourself by yourself
Easily you can be left alone
Tighten it up, you better

Is this the part you take my heart
And wipe your feet on
Is this the part you take my heart
And wipe your feet on
