## Razor

Making headlines and headstones Breaking hearts and breaking bones Your life's a performance, so let the cameras role

## Razor

You know it's all too good to last
If it's not too much to ask
Slow down, slow down, slow down before you crash
Oh, before you crash

## Razor

You're such a fatal attraction Your friends are only for fashion We may last for a while, but we'll go out of style

## Razor

You know it's all too good to last

If it's not too much to ask

Slow down, slow down, slow down before you...

Crash, crash into my arms
Put down your guard disarm, disarm
You think this whole world's against you
It's never your fault, we're the ones with the issues

Crash, crash into my arms
Put down your guard disarm, disarm
You think this whole world's against you
It's never your fault, we're the ones with the issues

Crash
Slow down before you
Crash
Slow down, slow down
Crash
Slow down, slow down, slow down

Razor, razor, razor

Crash, crash into my arms
Put down your guard disarm, disarm
You think this whole world's against you
It's never your fault, we're the ones with the issues

Crash, crash into my arms
Put down your guard oh disarm, disarm
You think this whole world's against you
It's never your fault, we're the ones with the issues

You think this whole world's against you It's never your fault, we're the ones with the issues
