Suffer

New Years Day

To adore is to grieve
To worship is to bleed
Find your way inside my heart
And bring all your pain with me

There's hell in your eyes
So let your demons dance with mine
We'll kill each other some day
But now is not the time

Sacrifice all that's left
so you'll give it till it hurts

I'd suffer for you, would you suffer for me?
'Til our affliction set us free
The kind of hurt that we both need
I'd suffer for you, would you suffer for me?

How deep, how far will you go
Tell me cause I wanna know
I'd give you my life and the air that I breathe
I'd suffer for you, would you suffer for me?

It's not real unless it hurts
Cause true love is a curse
Lets compare each others scars
I see who really had it worse

I'll inflict myself upon you
Cause the pain means we're alive
We'll scratch our way through the dark
Cause to struggle's to survive

Sacrifice all that's left
so you'll give it till it hurts

I'd suffer for you, would you suffer for me?
'Til our affliction set us free
The kind of hurt that we both need
I'd suffer for you, would you suffer for me?

How deep, how far will you go
Tell me cause I wanna know
I'd give you my life and the air that I breathe
I'd suffer for you, would you suffer for me?

Would you hurt for me
Would you bleed for me
Would you die for me
Suffer, suffer, suffer, suffer

I'd suffer for you, would you suffer for me?
'Til our affliction set us free
The kind of hurt that we both need
I'd suffer for you, would you suffer for me?

How deep, how far will you go

```
Tell me cause I wanna know
I'd give you my life and the air that I breathe
I'd suffer for you, would you suffer for me?

Suffer, suffer
```

```
Tell me cause I wanna know
I'd give you my life and the air that I breathe
I'd suffer for you, would you suffer for me?

Suffer, suffer
```
