

## Two in the Chest, One in the Head

New Years Day

Just what the doctor ordered  
A hospital bed and a coroner  
You knocked me dead just like I knew you would  
No cure or recovery  
Baby, I'm addicted to your disease  
Maybe you're a bad medicine  
Maybe you're a bad medicine

I'm dead inside - you make me feel alive  
You're all I want and I don't know why  
This new addiction is all I know  
And it's safe to say  
That I've lost all control

I've always felt so empty  
Took a little taste and found you are the remedy  
You knocked me dead just like I knew you would  
No help or therapy  
Baby, I'm addicted to your disease  
Maybe you're a bad medicine  
Maybe you're a bad medicine

I'm dead inside - you make me feel alive  
You're all I want and I don't know why  
This new addiction is all I know  
And it's safe to say  
That I've lost all control

You knocked me dead  
And I've lost all control  
You knocked me dead

I'm dead inside - you make me feel alive  
You're all I want and I don't know why  
This new addiction is all I know  
And it's safe to say  
That I've lost all control

You knocked me dead  
And I've lost all control  
You knocked me dead
