

# Live In Stereo

Newsboys

This field guide's got no soul  
Digging for the sacred  
In a man-made hole

The soil gets harder  
The shovel won't behave  
I just dug myself  
Into a six foot grave

I need a new dimension  
Got to Supersize  
A Jacobean ladder  
To a parallel prize

The walks by faith  
The sight lines lie  
How am I gonna tag along  
With one tin ear  
And one glass eye?  
Well I...

I can't get there from here  
When every sense is in mono  
Walk by faith, you appear  
I wanna live in stereo

I can't get there from here  
Without a God-directed go  
Walk by faith, you appear  
I've gotta live in stereo

I quit, I fold, I'm done  
Trying to scale Everest  
Sherpa-less  
Ain't fun

The best-laid plans  
Are in my other pants  
The base camp's buried  
In an avalanche

I need a new dimension  
Got to Supersize  
A Jacobean ladder  
To a parallel prize

The walk's by faith  
The lone wolf dies  
How am I gonna follow you  
With blue man ears  
And snow blind eyes?
