

Secret Kingdom

Newsboys

This here, comes breaking in
Like brick to glass, like grace to sin
Gonna kick down walls like West Berlin
Shout an Amen, hug it out, then

And this here's gonna light a fire
Gonna pink slip preaching to the choir
Gonna send us hobbits outta the shire
Here's the theme song, get your ring on

That there's still propagating
Waiting on a rooftop
Our journey's just begun, oh

Come here, a little bit closer
I wanna take you to a Secret Kingdom
It's here, spinning our world around
Turn it upside down

This here, is bigger than showbiz
It's gonna show us what the Good News really is
This here is spinning our world around
'Til we got no fear

This here, won't be contained
By culture, wars and trendy names
Been there, done that, wore out the t-shirts
Don't need free perks, don't need knee jerks

This here, still wakes the dead
Still gets God's people Spirit-led
Gonna put in action all we've read
Not all enraged, just all engaged

'Cause that there's still fabricating
Kingdoms out of boxes
We're gonna leave that slum, oh

Come here, a little bit closer
I wanna take you to a Secret Kingdom
It's here, spinning our world around
Turn it upside down

This here, is bigger than showbiz
It's gonna show us what the Good News really is
This here is spinning our world around
'Til we got no fear

This here, wants faithfulness, not easy fixes
This here, won't shrink to fit no politics, yeah
This here, knows whistles make for better mixes

Come here, a little bit closer
I wanna take you to a Secret Kingdom
It's here, spinning our world around
Turn it upside down

This here, is bigger than showbiz
It's gonna show us what the Good News really is
This here is spinning our world around
'Til we got no fear

Come here, a little bit closer
I wanna take you to a Secret Kingdom
It's here, spinning our world around
Turn it upside down

This here, is bigger than showbiz
It's gonna show us what the Good News really is
This here is spinning our world around
