

Strong Love

Newsboys

He swings to the left, she leans to the right
But that doesn't make a fight up given
And some pitch their tents in the middle of the fence
But it doesn't matter where you're living

If His spirit's in me, His spirit's in you
So there's a common bond between us
And the mission for me is a mission for you
We have a common cause to link us

Strong love, yeah people
Strong, strong love between us
Strong love, yeah people
And you know it's true that it always must be there

He worships while he grooves, she prays and barely moves
But they're both reflecting pure devotion
And some go for broke like headless chicken folk
Inspiring jokes about poultry-in-motion

If His spirit's in me, His spirit's in you
So there's a common bond between us
And the mission for me is a mission for you
We have a common cause to link us

Strong love, yeah people
Strong, strong love between us
Strong love, yeah people
And you know it's true that it always must be there

Now don't just agree and then wait on history
This is not a duty free abstraction
The visions get blurred and the message gets heard
By putting Jesus' words in action

It's a master design, it's a million watt sign
You can see it shine like patent leather
It's a way people see how heaven's gonna be
When we live in unity together

Strong love, yeah people
Strong, strong love between us
Strong love, yeah people
And you know it's true that it always must be there

Strong love yeah, people
Strong, strong love between us
Strong love yeah, people
And you know it feels like it always will be there
