

# Love Gets In The Way

NewSong

You heard my cry and You saw my need  
With a Father's love You reached down for me  
And like a child learning right from wrong  
You keep teaching me and make Your ways my own

Sometimes I feel it's more than I can bear  
Well, I slip and stumble but You're always there

Lord, Your love gets in the way  
Every time I fall  
Every time I think there's no hope for me at all  
When it seems my fate is to drown in my mistakes  
Lord, Your love gets in the way

Some days go by without a fight  
And some days I can't do anything right  
I do my best just to stay on track  
But it's one step forward and two steps back

And when I'm feeling like I can't go on  
I lean on You Lord cause You're always strong

I start to wonder if I missed my call  
The things I want to do I can't do at all  
Your love keeps leading me right back to You  
In spite of everything I do
