

# Babylon is Gonna Fall

newworldson

We build towers made of steel  
But that won't connect Heaven and the ground  
These days money not love  
Is the thing that makes this world go round

We've got no more faith in our foundation  
And this base ain't strong at all  
This world is just an illusion  
And one day soon  
Babylon is gonna fall

Take a look around and see  
Why aren't we people living in unity?  
Self-serving humans we'll always be  
Indulging our humanity

We've got no more faith in our foundation  
And this base ain't strong at all  
This world is just an illusion  
And one day soon  
Babylon is gonna fall

I said Babylon is gonna fall

We've got no more faith in our foundation  
And this base ain't strong at all  
This world is just an illusion  
And one day soon  
Babylon is gonna fall  
Yes, it is  
Babylon is gonna fall  
I can't wait fo that day

I say Babylon is gonna fall

Babylon is gonna fall
