

Old Time Religion

newworldson

How can you call it old time religion
When it's right here and right now?
Ain't nothing old about God's Holy Spirit
He's the same today as yesterday

And evermore shall He be
He's gonna reign eternally
Go, ask the children, young men and women
Ask them if my Jesus is alive

They're gonna tell you all about Amazing Grace
They're gonna let you know my King is in this place
How can you call it old time religion
When it's right here and right now?

I've got a watch on
I know what time it is and I'm not the only one
Come on, try to say you haven't seen the signs
Come now, try to tell us that it's in our minds
Some folks will hear it, some eyes will see
Good thing, it ain't all up to me

How can you call it old time religion
When it's right here and right now?
Ain't nothing old about God's Holy Spirit
He's the same today as yesterday

And evermore shall He be
He's gonna reign eternally
Go, ask the children, young men and women
Ask them if my Jesus is alive

They're gonna tell you all about Amazing Grace
They're gonna let you know my King is in this place
How can you call it old time religion
When it's right here and right now?
