

## Second Wind

Nick Carter

I woke naked with my head in the trunk  
A tattoo on my chest I guess I was drunk  
Still tasting liquor on the tip of my tongue  
I don't remember, but I guess it was fun

My first real problems really tear me apart  
I broke my PlayStation and now it won't start  
My vegan girlfriend only feeds me quin wan  
I double parked against someone keyed my car

Oh baby, let's sail away  
(Gotta get away, gotta get away)  
Oh baby, let's sail away  
(Gotta get away, gotta get away)

Don't let your heart bleed out  
Just let the sun light in  
That's to ??? your clouds  
I'm on my way again  
No you can't knock me down, I got my second wind  
Don't let your heart bleed out  
Just let the sun light in  
I got my second wind, I got my second wind

You'll find the one you're loving without a doubt  
You buy her a ring so you can keep her around  
She meets your mama and the crazy comes out  
Before you know it, you get kicked out your house

Oh baby, let's sail away  
(Gotta get away, gotta get away)  
Oh baby, let's sail away  
(Gotta get away, gotta get away)

Don't let your heart bleed out  
Just let the sun light in  
That's to ??? your clouds  
I'm on my way again  
No you can't knock me down, I got my second wind  
Don't let your heart bleed out  
Just let the sun light in  
I got my second wind, I got my second wind

All my days is worries  
And nothing, don't need them anymore  
'Cause out her on the ocean, I'm floating  
I left them on the shore

Don't let your heart bleed out  
Just let the sun light in  
That's to ??? your clouds  
I'm on my way again  
No you can't knock me down, I got my second wind  
Don't let your heart bleed out  
Just let the sun light in  
I got my second wind, I got my second wind
